PROFILE

I work at the point where engineering and authorship stop being separate jobs. On one side: AI systems, generative pipelines, full-stack web, 3D and automation tooling. On the other: photography, documentary and film.

Since 2012 that has meant graphic design, documentary photography exhibited in Turkey, France and Armenia and published in The New York Times, a degree in 3D animation and visual effects, creative direction for Xiaomi across the CEE and Nordic markets, and — in 2026 — two complete AI-generated short films written, directed, edited, graded and scored end to end by one person. The new world does not need a specialist for every link in the chain; it needs people who can hold the whole chain.

SELECTED WORK

STRUKTUR.AGENCY

B2B enterprise creative studio · struktur.agency

Founder · Creative direction · Delivery · Client-facing lead

High-velocity creative studio for global enterprises, real estate developers and marketing directors. Five delivery lines: 3D visualisation, AI advertising and media, brand identity and marketing assets, web design and SEO, social media management. Asynchronous cloud workflow, NDA-backed international B2B contracting, senior creative on every project.

3D VISUALISATION PORTFOLIO

WebGL · Three.js · 3ds Max · V-Ray / Corona

Architecture · Shaders · Rendering · Performance

Photorealistic architectural, interior and product rendering, and a high-performance WebGL application housing thirty interactive 3D experiences — computational shaders (glass refraction, chromatic aberration), HDRI lighting and in-browser lazy-loading of 200 MB+ FBX geometry.

FULLY AI ADVERTISING FILMS

34 brands · 30" each · FMCG, beauty, home care, EV

Concept · Direction · Prompt design · Edit · Grade · Sound

Generative commercial production without shoot timelines, cast or locations. Each spot is built from a single designed start frame and chained by last frame across two fifteen-second blocks, with trademark and label integrity solved in the pipeline rather than repaired in post.

BRANDING, MARKETING & B2B

Identity systems · campaigns · web · SEO

Strategy · Art direction · Production · Localisation

Logo systems, design standards and collateral; investor and executive presentation materials; SEO-optimised web architecture built for lead conversion; campaign localisation across international markets — carrying the enterprise experience from Xiaomi, AON and the Google vendor programmes.
