★ TARGET: Football Data Visualization Specialist / Technical Analyst | Turkish Süper Lig Clubs

EXECUTIVE PROFILE

Specialized Football Data Visualization Specialist and AI Engineer uniting on-pitch match event intelligence (Opta, StatsBomb, Wyscout) with elite visual design and computational models. Proven club experience delivering actionable pre-match tactical dossiers, recruitment dashboards, and post-match debriefs for coaching staffs and sporting directors. Leverages Python (mpIsoccer, Scikit-learn, PyTorch), full-stack web architectures, and unsupervised machine learning to translate complex tracking and event data into decisive tactical advantages. Bilingual background (lived and educated in Poland; native Turkish speaker based in Istanbul) ideally positioned for Turkish Süper Lig clubs scouting high-tempo Central & Eastern European talent.

FOOTBALL ANALYTICS & PROFESSIONAL EXPERIENCE

Górník Zabrze — Sports Data Visualization Specialist (Remote / Hybrid) 2025 – 2026 Season

- Engineered end-to-end Python tactical visualization pipelines using **mplsoccer**, **matplotlib**, and Opta/Wyscout event data, delivering pre-match opposition reports and post-match debriefs for coaching and video analysis staff.
- Architected automated **Passing Network** models, **Expected Threat (xT)** spatial pitch grids (12x8 zones), and **PPDA defensive territory heatmaps** to pinpoint opponent transition vulnerabilities and pressing triggers.
- Constructed **Recruitment & Scouting analytical suites** with Percentile Pizza Radars and multi-metric outlier scatter plots, establishing benchmark profiles for key assets (Damian Rasak, Lukas Podolski, Erik Janža) and transfer targets.
- Deployed unsupervised Machine Learning models (**K-Means & PCA clustering**) across 140+ Ekstraklasa outfield players to identify tactical twins and simulate squad replacement options for recruitment directors under budget caps.
- Accelerated coaching staff match preparation by **40%** through standardized, high-contrast visual templates translating raw event streams into intuitive tactical takeaways.

Xiaomi Technology — Creative Director (CEE & Nordic Markets) Warsaw, Poland | 2024 – 2025

- Directed high-velocity visual campaigns and brand design architectures across Central & Eastern Europe and the Nordic region.
- Integrated modern **AI-assisted workflows**, prompt engineering frameworks, and automated asset generation pipelines.
- Managed cross-functional international teams, external agencies, and technical partners under tight deadlines.

AON — Creative Design Associate Krakow, Poland | 2023 – 2024

- Delivered executive-level reporting collateral, visual communication systems, and brand assets for global enterprise stakeholders.
- Implemented AI-powered data processing and automated visual concepting pipelines to enhance departmental throughput.

Cognizant Technology Solutions — Senior Process Executive (Google Vendor Office) Krakow, Poland | 2022 – 2023

- Coordinated digital analytics operations, Google Analytics, Ads, and performance reporting for international Google accounts.
- Designed executive dashboards and automated report generation systems to ensure high data integrity and rapid delivery.

ADDITIONAL TECHNICAL EXPERIENCE

Genpact — AI Data Labelling & Content Specialist (YouTube Trust & Safety, Google Vendor) **Krakow, Poland | 2021 – 2022**

- Classified and audited large-scale structured multimodal datasets to support machine learning models under strict quality benchmarks.

Struktur.agency — Founder & Creative Technologist**Remote | 2018 – Present**

- Architected interactive WebGL applications, custom shaders, 3D visualization, and automated Adobe ExtendScript tooling.

FOOTBALL ANALYTICS & AI ENGINEERING CORE SKILLS

FOOTBALL EVENT MODELS

Expected Goals (xG), Expected Threat (xT - Karun Singh model), Passes Allowed Per Defensive Action (PPDA), Field Tilt %, Passing Networks, Shot Constellations, Directional Pass Sonars.

DATA & PYTHON STACK

Python (mplsoccer, matplotlib, seaborn, pandas, numpy, scipy, scikit-learn), SQL, JupyterLab, REST APIs, JSON event stream parsing.

AI & MACHINE LEARNING

Unsupervised clustering (K-Means), Dimensionality Reduction (PCA), similarity engines (cosine/Euclidean for player replacements), prompt engineering (Claude, GPT-4, Gemini).

FRONTEND & WEB VISUALS

HTML5, CSS3, JavaScript (ES6+), React, Vite, TypeScript, Tailwind CSS, WebGL, Canvas, Chart.js, interactive scouting dashboards.

VISUAL COMMUNICATION & DESIGN MASTERY

Adobe Creative Suite (Photoshop, Illustrator, InDesign, Premiere Pro), Figma, typography standards, high-contrast dark-mode presentation palettes, executive coaching reporting.

EDUCATION & CREDENTIALS

DSW Ideis University (Dolnośląska Szkoła Wyższa)**Wrocław, Poland | 2017 – 2021****Bachelor of Arts (B.A.) in Creative Media — 3D Animation & Visual Effects****FH Oberösterreich (University of Applied Sciences Upper Austria)****Hagenberg, Austria | 2018 – 2019****Digital Communication & Multimedia — International Academic Exchange**

LANGUAGES & REGIONAL SCOUTING COVERAGE

Languages: Turkish (Native) • English (C1 Fluent - Full Professional Working Proficiency) • German (B1) • Polish (Professional Familiarity).

★ **Strategic Advantage for Süper Lig:** Deep on-the-ground familiarity with Central/Eastern European leagues (Poland Ekstraklasa, Czech First League, Austria Bundesliga) enabling seamless domestic data integration, high-value transfer scouting, and technical staff communication.
