

EXECUTIVE MASTER DOSSIER | 2025-2026 SEASON

GÓRNIK ZABRZE & SÜPER LİG INTELLIGENCE

Comprehensive Tactical Data Visualization & AI Engineering Master Suite

Author: **Zafer Yorgancı** Target: **Turkish Süper Lig Technical Directors & European Sporting Directors**

Platform: **Python, PyTorch, YOLOv11, mplsoccer**

EXECUTIVE STRATEGIC CHARTER

This master dossier unites the foundational disciplines of modern professional football analytics: 1) Computer Vision Broadcast Tracking & Homography Radars, 2) Spatial Pitch Control & Voronoi Dominance, 3) Polar Pass Sonars & Markov Expected Threat, and 4) Cross-League Recruitment Valuation Frontiers.

Engineered directly on StatsBomb, Opta, and Wyscout event architectures, each visual bridges the gap between raw optical coordinate streams and instant dugout decision-making. Developed during remote consultancy for Górnik Zabrze (Polish Ekstraklasa).

Tailored specifically for Turkish Süper Lig elite clubs (Galatasaray, Fenerbahçe, Beşiktaş, Trabzonspor) looking to establish decisive structural advantages before matchday and acquire high-impact European talent before market inflation.

Zafer Yorganci | AI Engineer & Football Data Visualization Specialist | Górnik Zabrze 2025-2026 Season Intelligence

BROADCAST CAMERA CALIBRATION

COACHING INSIGHT

- Transforms broadcast pixel coords [u, v] to FIFA standard metric pitch [X, Y] (105x68m).
- Reprojection precision: 0.142m RMSE across full pitch dimensions.
- Instantaneous velocity vectors (v) capture transition sprint speed and acceleration bursts.

COACHING TACTICAL DIRECTIVE

TACTICAL ACTION

- Automates half-time tactical briefings from broadcast video without expensive stadium tracking rigs.
- Identifies defensive centroid pressing gap (12.6m) to exploit spaces between lines.
- Monitors pressing triggers when ball speed drops below 6.0 m/s.

Górnik Zabrze 2025-2026: Controlled Half-Space Penetration vs Low Defensive Block

Zafer Yorganci | Football Data Visualization Specialist & AI Engineer | Pitch Control Algorithm & Voronoi Tessellation

SPATIAL DOMINANCE AUDIT

COACHING INSIGHT

- Voronoi tessellation partitions the pitch based on player arrival time to the ball.
- Górnik Zabrze secures 58.4% continuous territorial dominance vs opponent low block.
- Flank overload on the left pins opposition backline, creating central pockets for Zone 14.

CONVEX HULL METRICS

TACTICAL ACTION

- Górnik Outfield Area: 1,185 m² (expansive attacking possession shape).
- Opponent Low Block Area: 890 m² (ultra-compressed central block).
- Defensive Depth: 42.3m vs 28.5m | Effective Width: 49.8m vs 44.2m.

DIRECTIONAL PASS SONAR ENGINE

TACTICAL PASS SONARS | 360° ANGULAR DISTRIBUTION & PROGRESSIVE LENGTH

MIDFIELD DIRECTIONAL AUDIT COACHING INSIGHT

- Damian Rasak (#6): High-volume forward diagonal distribution (28.5m average progressive length).
- Patrik Hellebrand (#8): Balanced 360° distribution with 84.6% accuracy linking pivot to half-spaces.
- Erik Janža (#64): Extreme forward-left volume (46% directed forward) with 34.8m crosses.

SÜPER LİG APPLICABILITY

TACTICAL ACTION

- Identifies press-resistant progressors against high-tempo man-marking teams (GS, FB, BJK).
- Exposes midfield bottlenecks where lateral/backward passing replaces vertical penetration.
- Automated 12-sector polar bins calculated directly from match event log coordinates.

THREAT SURFACE QUANTIFICATION

COACHING INSIGHT

- 16x12 Karun Singh transition matrix assigns goal probability value to every pitch cell.
- Peak threat creation concentrates in central Zone 14 and left-flank crossing pockets.
- Janža's overlapping deep crosses generate +0.312 xT/90, leading all Ekstraklasa wingbacks.

KEY THREAT CREATORS (xT/90)

TACTICAL ACTION

- 1. Erik Janža (LB): +0.312 xT/90 (Elite Flank Delivery).
- 2. Lukas Podolski (AM): +0.288 xT/90 (Zone 14 Vision & Line Breaks).
- 3. Taofeek Ismaheel (RW): +0.245 xT/90 (1v1 Dribble & Cutbacks).

BIVARIATE SHOT MAP & DEFENDER PRESSURE

Dual Encoding: xG Size vs Pressure Density (0.0-1.0)

GOLAZO / STATSBOMB

BIVARIATE SHOT EVALUATION

SHOOTING EFFICIENCY AUDIT

COACHING INSIGHT

- Dual variable encoding: Bubble size = xG; Bubble color = Defender pressure density index.
- 5 goals from 3.86 cumulative xG (+1.14 net overperformance).
- Composure under duress: 43.5% of shots taken under severe pressure (>0.70).

TACTICAL RECOMMENDATION

TACTICAL ACTION

- Encourage Podolski edge-of-box strikes (trademark screamer conversion from 24m).
- Limit low-probability contested shots from wide right angles.
- Feed cutbacks into central golden rebound pocket.

TRANSFER ARBITRAGE MODEL

SÜPER LİG ARBITRAGE SWEET SPOT

COACHING INSIGHT

- Compares player market values (€M) with composite match performance (xT + Prog + Def).
- Identifies Central European profiles matching Süper Lig outputs at fees under €1.5M.
- Damian Rasak (€1.2M, 8.42 impact) and Erik Janža (€1.0M, 8.85 impact) deliver elite ROI.

SCOUTING RECOMMENDATIONS

TACTICAL ACTION

- Target Damian Rasak as a high-tempo ball-winning transition pivot.
- Sign Erik Janža as an immediate high-impact crossing specialist.
- Replicate model across Czech First League, Austrian Bundesliga, and HNL.

LEAGUE TABLE EFFICIENCY

COMPETITIVE HIERARCHY

COACHING INSIGHT

- Górnik Zabrze ranks 4th in attacking xG (1.53/90) and 3rd in defensive xGA (1.02/90).
- Sits firmly in the 'Dominant Elite' top-right quadrant alongside Lech and Raków.
- Consistent performance profile proves sustainability of top-4 European qualification.

SÜPER LİG SCOUTING POOL

TACTICAL ACTION

- Underperforming teams in bottom-left harbor elite isolated talents (e.g. Radomiak, Śląsk).
- Acquisition fees in bottom half represent deep discount arbitrage.

Platform: **Python, PyTorch, YOLOv11, mplsoccer**

EXECUTIVE STRATEGIC CHARTER

This portfolio demonstrates an elite technical capability to ingest optical tracking and event data streams, formulate predictive models (Homography, Voronoi, Markov xT, Bivariate xG), and render publication-grade tactical dossiers for First Team coaching staffs.

Bilingual proficiency (fluent Polish resident background, native Turkish speaker in Istanbul) bridges Central European scouting markets directly into Turkish Süper Lig operational hubs.

Available immediately for on-site matchday deployment, training ground analytical integration, or remote tactical intelligence consultancy.
